Thank you for being a part of our research. As you know, the virus SARS-CoV-2 and the disease it can cause, COVID-19, affect many people. People live in different places, with different customs, cultures, sexual practices, and beliefs. We hope to include people from different communities in our research. We respect all people. Not all questions we ask in our research will apply to you. Because we do not want to make assumptions, we ask the same questions of everyone. We want you to be comfortable in speaking with us. You do not have to answer any question that makes you uncomfortable.

Now I am going to ask you some questions about yourself. The answers to these questions will tell us more about who you are, such as your age and race. I will also ask you about your sex and gender.
