

Data Collection Worksheet

Please Note: The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

Now I would like to ask you some questions about whether your relatives, regardless of whether or not they are now living, have **EVER** had problems with drugs. By having problems with drugs, I mean a person who has physical or emotional problems because of drug use (*PAUSE*); problems with a spouse/partner, family, or friends because of drug use (*PAUSE*); problems at work or school because of drug use (*PAUSE*); problems with the police because of drug use-like driving under the influence (*PAUSE*) or a person who seems to spend a lot of time using drugs or getting over their bad aftereffects.
