

## Data Collection Worksheet

**Please Note:** The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

The Bayley Scales of Infant and Toddler Development<sup>®</sup>, Third Edition (Bayley-III<sup>®</sup>) consists of five domains (cognitive, motor, language, social-emotional, and adaptive behavior).

The Bayley-III<sup>®</sup> is a proprietary instrument and is available on line from Pearson at [www.pearsonclinical.com](http://www.pearsonclinical.com). A fee is associated with the Bayley-III<sup>®</sup>, and this fee is dependent upon various factors, such as if the Bayley-III<sup>®</sup> is purchased as a kit (i.e., questionnaires, manuals, or forms) or in individual components.
