

Data Collection Worksheet

Please Note: The Data Collection Worksheet (DCW) is a tool to aid integration of a PhenX protocol into a study. The PhenX DCW is not designed to be a data collection instrument. Investigators will need to decide the best way to collect data for the PhenX protocol in their study. Variables captured in the DCW, along with variable names and unique PhenX variable identifiers, are included in the PhenX Data Dictionary (DD) files.

On the body diagrams, place an X in each box where, due to sickle cell pain, you hurt yesterday

The form contains two human body diagrams, one labeled "FRONT" and one labeled "BACK". Each diagram is a simple outline of a person with a grid of small squares overlaid on the body to indicate areas for marking pain. The "FRONT" diagram has "Right" and "Left" labels at the bottom. The "BACK" diagram has "Left" and "Right" labels at the bottom. A central box contains the instruction "Please mark the boxes like this:" followed by a small square containing an "X".
